TELECOMMUNICATION CLOUD PRESENT

WORK EXPERIENCE

IDEAHELIX
Aug 2025 - Present

SENIOR VLOCITY DEVELOPER

Client: REV (Since Aug 2025)

- Working as Senior Salesforce Vlocity developer on Telecommunication Domain using these skills: Vlocity Omniscrypt, Vlocity Order Management, DataRaptor,Vlocity Integration Procedures, Vlocity CLM, Industry CPQ, Vlocity EPC, Vlocity Calculation Procedures, Vlocity Calculation Matrices, Vlocity actions.
- Working on CPQ journey using ESM from Lead Convert, Account and Opportunity creation, Quote creation, upload locations/subscribers, create master orders and suborders then create contract and contract document using CLM.
- Architected and implemented a configurable Apex framework for round-robin functionality, enabling automatic record assignment across multiple Salesforce objects including Opportunities, Leads, Cases, and custom entities. The solution allowed for dynamic queue/user mapping, supported custom exception handling, logged assignment history for audit compliance, and integrated seamlessly with triggers, flows, and process automation. This framework significantly reduced administrative overhead, improved assignment transparency, and increased operational efficiency across Sales and Service teams.

Client: Bill (Since Sept 2025)

- Working as a Senior Salesforce Developer/Consultant with strong hands-on experience on the Salesfore ARM / Salesforce Revenue Cloud platform, covering end-to-end Order-to-Cash (O2C) processes. The project involved implementation readiness, catalog setup, pricing, billing configuration, and orchestration for complex enterprise products.
- Lead and contributed to PCM-based product and offer modeling, including product hierarchies, bundles, attributes, and dependencies. Implemented Industry CPQ for guided selling, pricing, discounts, and rule-based configurations. Supported Quote-to-Cash (Q2C) flows from quote creation through contract, order, fulfillment, billing, and asset lifecycle management.

Configured and managed billing points, including:

- Billing Schedule (one-time, recurring, milestone-based)
- Legal Entity setup for multi-entity billing
- Billing Policy and Billing Treatment
- Billing Treatment Items
- Invoice Scheduler for automated invoice generation
- Payment Terms and Payment Term Items
- Tax Terms and tax calculation alignment
